WORK LIGHT (2–40 HOURS)	HAZARD LIGHT: SOLID-ON (5 HOURS)
	FLASH (10 HOURS)
	TRIPLE-PULSE (18 HOURS)

CHARGING THE INTERNAL BATTERY

Please charge before initial use. In order to keep the charge, be sure to fully recharge the unit every 6 to 12 months, even if the unit has not been used.

1. Locate the attached USB cord on the side and plug into a USB power port such as a USB wall charger, USB car charger or power bank.
2. The charge indicator LEDs will illuminate to show the level of charge (25–100 %). While recharging, the next LED will flash, followed by the next until fully charged. It is fully charged when all 4 LEDs illuminate solid.
3. Return the USB cord into its storage location.

HOW TO ADJUST THE STRAP

1. Lift tab.
2. Adjust strap.
3. Push tab down to lock.

MAINTENANCE

- All batteries discharge over time. Be sure to fully recharge the unit every 6 to 12 months, even if the unit has not been used.
- Use a slightly damp cloth with mild detergent to clean the outer surfaces as needed.
